I'm web developer. Fast Learner. I also learn the latest technologies related to the projects I work on. I can communicate and work in a team well

## Work Experience

---

Dec 2023 - now  
8 Months

### Fullstack Web Development Mitra Infotek Total Solusi

I work in IT consulting. we work on websites for trading and SAAS. Our clients are factories, distributors, warehouses and insurance.

On a trading project I created a backend to serve API to clients, used bun script, created architecture with MVC and clean code, designed database using sql server. implement security, authorization, and deployment . Apart from that, I also work on the frontend

May 2023 - June 2023  
2 Months

### Frontend React Js Freelance

I joined in working on the National Police Integration Project with my friends for 2 months, I created dummy data for the MVP, then retrieve real data from the Postgresql database
